01

Commit to a Strategic Plan

Develop a clear roadmap outlining organizational goals and objectives.

Ensure everyone in the organization understands and commits to the plan.

Monitor and evaluate performance using key performance indicators (KPIs).

02

Align Jobs to Strategy

Optimize job design to support strategic objectives.

Involve employees in the alignment process by providing training and understanding.

Leaders should ensure employees understand their role in the strategy and are accountable.

03

Communicate Clearly Employees

Use simple language and avoid jargon.

Provide regular positive and constructive feedback.

Foster a culture of open communication, allowing feedback from employees.

04

Measure and Monitor Performance

Utilize Key Performance Indicators (KPIs) to gauge success.

Use diagnostic control systems for real-time data on performance.

Identify areas of improvement and adjust strategy accordingly.

05

Balance Innovation and Control

Encourage innovation while maintaining focus and control.

Implement an aligned innovation strategy with the overall business plan.

Foster a culture that values both innovation and structure
